Subject: Role of Women in Worship

For the last three years we have prayerfully considered the role of women in the Sunday morning assembly. Attached is our position on the topic that we want to share with each of you.

Throughout this process it has been our objective to be as inclusive of the entire congregation as possible. To further that objective, we have established the following office hours over the coming week. Several Elders will be available for each scheduled period. No appointment is necessary, just come by and visit about this topic, anything else that might be on your heart or just pray with us.
